∞ pear® TRAINING INTELLIGENCE®

4) Workout Thumbnails

Use thumbnail images for each workout that are unique to your brand and best illustrate the type of workout.

4

5) Exercise Videos

The embedded exercise videos are the best place to showcase your brand's logo, colors, on-screen talents, exercise modalities, lighting and backgrounds
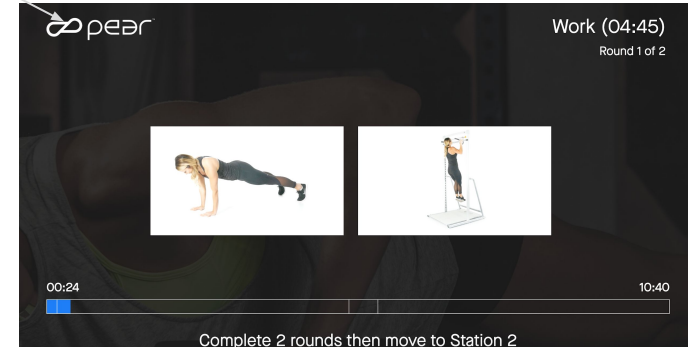

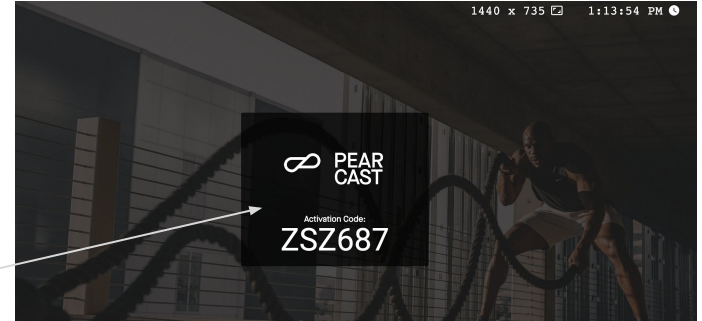

6) Display

When displaying workouts on TVs you are prompted to enter an activation code from the assigned TV. The following can be customized to your brand and colors:

- Logo
- Company Name
- Time Ribbon

Supported Configurations

The PEAR Studio tool was designed to provide as many configurable features and options as possible but there are constraints. The configurable options and their limitations are shown below. Items not listed in this document and the table below are not customizable in the PEAR Studio tool.

Feature	Configurable	Description
Colors and Fonts	Yes, with Limitations	PEAR Studio allows color customization to accommodate your branding. Replacement fonts should go through a full Quality Assurance cycle to ensure that longer words do not wrap.
Brand Name	Yes	Preferred spelling of your brand name, including casing and spacing, to be shown on the site. Maximum character length limitations apply
Domain Name	Yes	The domain name for Studio can be customized to a domain name that you already have or purchase
Workout Image Thumbnails	Yes, with Limitations	Up to 20 custom workout thumbnail images can replace the default PEAR workout thumbnail images. Of note, these images will appear in Studio and on Screen casts
Custom Exercise Videos	Yes	4K exercise videos can be provided to supplement or replace the existing PEAR Workout Builder exercise videos
Screen Layout, Elements and Flow	**No**	**The PEAR Studio tool does not allow for layout, element or flow customization, this means that while custom branding is available, the order or placement of the elements and screenflow cannot be altered.**
